 2. After January 1, 2006, the foal was conceived through embryo/ovum transplant, and the following conditions have been met.

- i. The Registrar of the United States Trotting Association granted approval for the embryo/ovum transplant before the transplant took place.
- ii. Only a donor mare's first born embryo/ovum transplant foal each year will be eligible for registration; and
- iii. The donor mare is at least two years of age or older at the time of the embryo/ovum transplant.

Condition #3 - Requirements For Sire Stakes Stallions

- (a) A Sire Stakes stallion shall be a registered Standardbred stallion standing on a farm in New Jersey for breeding purposes in accordance with N.J.A.C. 2:32-2.4, and shall be owned by a resident of the State of New Jersey or leased by a resident of the State of New Jersey for a period of at least 10 years.
- (b) A stallion must be registered with the Standardbred Breeders and Owners Association of New Jersey (SBOA-NJ) as a Sire Stakes stallion in order for his foals to be eligible to be nominated to the New Jersey Sire Stakes Program. Each Sire Stakes stallion shall be registered annually for a registration period beginning January 1 and ending December 31, which shall be referred to hereinafter as the "breeding season." In order for foals that are a result of the interstate shipment of fresh semen of a Sire Stakes stallion to be eligible for nomination to the Sire Stakes Program, the stallion of said foal must have been registered with the SBOA-NJ for participation in the interstate program.
- (c) A completed stallion registration application must be received by the SBOA-NJ at: SBOA-NJ, 64 Business Route 33, Manalapan, NJ 07726, not later than December 1 of the year prior to that in which the stallion is to stand. In addition, a Certificate of Veterinary Inspection, completed by a licensed New Jersey veterinarian who examined the stallion at the beginning of the current breeding season shall be submitted to the SBOA-NJ, along with a copy of the EIA-AGID test chart, no later than March 1. A Certificate of Veterinary Inspection shall be submitted for each dual hemisphere stallion on or before March 15 of the current breeding season by a licensed New Jersey veterinarian who examined the stallion prior to its first breeding of the season, and not later than March 1 of the year the stallion is registered and standing.
- (d) Provided that they meet all other eligibility requirements set forth in these rules, the foals of stallions registered in accordance with N.J.A.C. 2:32-2.3 shall be eligible to be nominated to all Premier Division races, all Standardbred Development Fund Division races, and any other races administered by the New Jersey Sire Stakes Program.

Condition #4 - Stallions Standing Full Season

A Sire Stakes stallion which is registered as a dual hemisphere stallion must be present on the farm on which he is registered to stand by the dates published by the SBOANJ of the year of registration, and shall stand on that farm for breeding purposes for the remainder of the breeding season, except that the Sire Stakes Board of Trustees may grant permission allowing a dual hemisphere stallion to leave the farm after July 15 of the breeding season in order to return to the southern hemisphere.

- (b) A stallion may race during a breeding season for which he is registered as a Sire Stakes stallion, so long as all proper registra-

tion paperwork is submitted. The Sire Stakes Board of Trustees may grant permission to compete in any stakes or invitational events only to a first year Sire Stakes stallion whose participation the Board of Trustees determines to be important to the betterment of the Sire Stakes Program. The granting of permission to race pursuant to this section shall not relieve any stallion from the requirements of (a) above or this subsection, except that any stallion granted such permission shall not be required to be on the farm on which he is registered to stand until March 1 of the breeding season. In order to be eligible, any stallion granted permission to continue racing may only breed or have semen collected on a farm with-in the boundaries of the State of New Jersey. Stallions that are registered in any jurisdiction other than the State of New Jersey shall be automatically disqualified from participation in the New Jersey Sire Stakes Program and any foals resulting from breedings to said stallions shall be ineligible to participate in the New Jersey Sire Stakes Program.

- (c) If a registered Sire Stakes stallion is moved during a breeding season without having obtained the prior permission of the Sire Stakes Board of Trustees, the foals of that stallion which were bred during that breeding season shall not be eligible for the Sire Stakes Program.
- (d) In the event that a stallion based in New Jersey dies during a breeding season, frozen semen of the deceased stallion may be used to establish and maintain the eligibility of his foals for the Sire Stakes Program; however, no foal conceived after the July 1 immediately succeeding the stallion's death shall be eligible for registration.
